

N'DURANCE Universal Composite & Dimer Flow

Now You Can Have It All

- With Proven Science*
- Extremely Low Shrinkage
- Outstanding Conversion
- Superior Aesthetics
- Highest Radiopacity

*Proven on going study, Catholic University of Leuven, School of Dentistry, Loma Linda University, School of Dentistry, California USA. 3+ yrs - anterior/posterior

“N'Durance composites have proven to be a good choice for natural looking, long lasting restorations. In addition to being radiopaque, they exhibit superior aesthetics and eliminate shrinkage. N'Durance also has zero solubility, ensuring my patients long lasting restorations.”

- Dr. Ross Nash, DDS, Nash Institute for Dental Learning

Post-op x-ray showing clear results of N'Durance radiopacity
