Integrity™ - Dentsply Caulk

Integrity temporary crown and bridge material is mixed in the tip, so you don't have to. Integrity temporary crown and bridge material dispenses directly in either an alginate impression or a plastic matrix for fast, durable temporaries. Count on minimal shrinkage during polymerization and no excess heat. Integrity comes with two different sized mix tips, including a special 50% smaller tip for single units.

Complete Package

Contains: 1-76gm A2 cartridge, 20 small mixing tips, and 1 dispenser and slide.

Crown Form Dispenser Dentsply Caulk

Clear Forms

Have anatomically designed in a stock tray. Therefore, restorations constructed from these clear matrices will be properly contoured anatomically. Much tedious grinding and finishing can be eliminated. Crown forms will not stick to composites, resins, or silicates. Contains: 35 forms on mold guide, 105 forms in stock tray.

Kit 171-0920 1@ \$505.00

CROWNS (CONT.)

B-Crowns™ – Bosworth

Temporary Polycarbonate Crowns and Molars

Thin and easily adjustable with pliers or crown scissors, B-Crowns are flexible and highly resistant to crazing and shattering. B-Crowns bond readily with all types of self-curing resins, composite materials and acrylics, thus preventing separation and making occlusal adjustments minimal.

Assortment Box

Contains 360 crowns (6 each of 48 molds), 8 x 6 useable mold guides, 4 molar strips (6 x 24) charts and more

Ion Polycarbonate Kit – 3M ESPE

Contains micro-glass fibre acrylic and working char. Trim and grind without shattering or breaking. Crimp the crown; it doesn't spring back. Bonds chemically to most cold-cure acrylics without softening or crazing. Thin-wall design for minimal occlusal interference.

Starter Kit

Contains: 2 crown forms each size, mold guide.

Kit #C-180 500-9063 1@ \$511.00

Primary Stainless Steel 3M ESPE

Time savers. Little trimming, but crimping needed. Decreased crown thickness allows crowns to be placed before cementation. Work during manufacture to achieve desired strength without manual manipulation. An excellent alternative to amalgam.

Primary Molar Starter Kit

Contains: 96 primary molar crowns.
Kit #ND-96.....500-9097 1@ \$830.95

Size 9557-6806

Septofil – Septodont

Knitted Nonimpregnated Tubular Cord

Septofil is a 100% knitted cotton nonimpregnated tubular cord for gingival retraction. It cannot come unstitched and has a high absorption property. It is very easy to position and to remove (the knitted design does not get expelled from the sulcus easily).

Build patient loyalty while enhancing patient comfort. And for less than \$1/visit

Lets face it. Most people don't like going to the dentist. So why not make their visit a little more comfortable?

These mini lip balms are ideal for soothing dry chapped lips. Patients can use it while in the dental chair and then take it home for later use. They'll think of your office every time they apply it.

A great way to reward your younger patients. Lip Rageous comes in four outrageous flavours: Strawberry, Watermelon, Red Apple and Blue Raspberry.

07-218-6633

An all time favorite, this all natural petroleum-free product contains refreshing Tea Tree Mint.

07-218-6609

kamco dental ltd

Give your patients a choice. Chap Ice Lip Balm comes in three great flavours: Orange, Kiwi Lime and Cherry.
